

Performance Mechanical, Inc.

An EMCOR Industrial Services Company

BOILERMAKER SERVICES

Single Source Solution to help you

SAVE TIME & MONEY on your next project.

PMI's expert installation, maintenance, and repair services help protect you from the risks of fractures, leaks, and corrosion that are inherent in facilities where liquids and gases are under pressure.

Our team of highly-skilled boilermakers and welders offer a wide range of specialty services for heat recovery steam generators, boiler tubes, heater tubes, vats, vessels, and piping.

Services

→ **Boiler Maintenance and Repair**

Package boilers, Power boilers, Recovery Boilers

→ **Tanks** - Erection, structural repairs, retrofitting, welding

→ **Heat Recovery Steam Generators (HRSG's)** - Erection, repair, maintenance, retrofits

→ **Process Heat Exchangers** - Installation, maintenance, shell repairs, tube bundle replacements

→ **Furnaces, Piping and Tubes, Valves, Environmental Equipment**

→ **Tube Repairs**

R Stamp Code Repairs

We know that you need your weld joints performed by specialists who have demonstrated their quality through rigorous testing. That's why our boilermakers are certified to perform R stamp welds and repairs, as specified by the National Board of Boiler and Pressure Vessel Inspectors and the American Society of Mechanical Engineers (ASME).

We're also certified in pressure piping, so we can weld, fit, and install all the tubes and accessories attached to your boilers and vessels.

Proven Welding Expertise

For all grades of carbon steel, exotic metals, high- and low-temp alloys, and stainless steels.
