Performance Mechanical, Inc. (PMI) can manage a complete range of civil construction projects as your single point of contact, reducing your need for multiple contractors and helping to keep your projects on schedule and cost-efficient.

Our in-house accounting and scheduling software delivers outstanding project control and custom reporting for every aspect of your projects. We offer certified and trained experts who understand what's needed both underground and aboveground, to help add strength and longevity to your operations.

A Full Range of Civil Construction Services

Whether your project involves demolition, excavation, grouting, restoration, or retrofitting, we can deliver all your civil construction needs, including:

- Asphalt patching
- Complex reinforced cast-in-place foundations
- Concrete curb, sidewalks, overlays, and repairs
- Demolition of existing foundations
- Engineered form systems
- Excavation and compaction
- Precision anchor-bolt and embed placement
- Rebar installation
- Reinforced slab-on-grade placement and finish
- Retrofitting existing foundations to fit new equipment
- Site restoration
- Underground utilities
- Below-grade sump basins
- Cementitious grouting
- Chemical containment foundations
- Drilled piers
- Helical piers
- Epoxy grouting for rotating equipment
- Large mat foundations
- Structural grout shims

Certified and Trained Excavation and Shoring Expertise

When you need civil construction for pipe-lines, manholes, drain basins, or vaults, it's valuable to know we've earned Gold Shovel Standard certification, to demonstrate our commitment to safety and to the integrity of your buried infrastructure. We're also OSHA Competent Person trained in shoring and excavations.
